

GREATER MANCHESTER'S HOPE HACK

14th October 2022

Do you work with young people who have a powerful voice and want to work to reimagine a better society?

What is the Hope Hack?

The Hope Collective is a powerful partnership of leading cross-sector organisations with aligned values and a shared vision; to work together in a spirit of unity to create real change for young people and communities across the UK.

Over the last year, the Hope Collective have been running a series of 'Hope Hack' events across the length and breadth of the UK. The purpose of these events is to listen to thousands of young people speaking about what they think would make for a fairer and safer society. The views, thoughts and ideas that are collected from the young people will form the basis of a new report called 'Reimagined' which will be presented to political parties for consideration in their manifestoes ahead of the next General Election. This ground-breaking report will outline what young people would like to see happen to make the UK a better place to live and grow up in.

Event details

Young people will participate in a series of workshops covering topics like education, social media, and mental & physical health, and present their recommendations to a panel of leaders.
